➤ Product Overview

The SC-75_e has been designed for Industrial Applications.
The compact housing is equipped with a slot SBC for Intel® Pentium® M Processors up to 1,8 GHz.
Three free PCI slots are available.
The use of a fieldbus interface card transforms the SC-75_e into a very compact, high performance machine control.
All connections are on one side of the housing.
The PC can optionally be equipped with mountin plates on two sides.
