

## **Richard Neussl is new COO of Kontron Transportation Group**

**Vienna, September 18, 2023 – Richard Neussl has been appointed Chief Operating Officer of Kontron Transportation Group with immediate effect.**

Richard Neussl has held key management positions in the railway industry for more than 4 years. Most recently as Vice President of the CEE-DACH-INDIA region at Kontron Transportation GmbH. In 2022 he was appointed Co-Managing Director of this company. With immediate effect, Richard Neussl is additionally responsible as COO for the entire sales area of the Kontron Transportation Group with customers in more than 25 countries worldwide.

Prior to that, he held international management positions at Kapsch CarrierCom and Kontron AG (formerly S&T AG) for more than 25 years and worked on many international projects. As a sales expert and managing director, he drove the business development in Eastern European markets in particular.

Richard Neussl lives near Vienna. He is married and has an adult daughter who is studying energy technology at the University of Leoben.

His wide range of hobbies (running, cycling, swimming, climbing, hiking, music, reading, theater, traveling) reflects his versatile personality. As a triathlete and marathon runner, Richard Neussl knows how important motivation, determination and teamwork are also professionally in order to achieve common goals. He promotes cooperation and exchange between employees and relies on a motivated and committed team that achieves success together. In doing so, he sets high standards for himself as well as the company and inspires his employees to give their best and strive for excellence.

„We have a leading role in shaping the FRMCS standard – (Future Railway Mobile Communication System) - and are driving forward the development of the new communication system for railways. We are a reliable partner for our customers when it comes to mission-critical infrastructure and accompany them on their digital transformation journey. I am keen to further expand our positioning as a leading provider in this specialized market and to open up new markets. To do this, we need a motivated team and a common goal - and we have that at Kontron Transportation“, Richard Neussl, COO Kontron Transportation GmbH.

“With Richard Neussl, we have a top sales expert with many years of international experience and an excellent track record for this position. Richard Neussl is also a very good people manager, he has an open ear for his employees and supports young people on their career path. Personally, I particularly

appreciate his level-headedness, analytical thinking, entrepreneurial flair and keen understanding of the challenges facing our customers.

As a leading supplier in our market segment, we deliver state-of-the-art communications technology and keep our broad installed base up to date. In this way, we support rail safety and the Green Deal. Richard Neussl will certainly make a valuable contribution to achieving our goals. I am looking forward to further cooperation with him”, Bernd Eder, CEO Kontron Transportation GmbH.

### About Kontron Transportation

**Kontron Transportation GmbH** is a global leading supplier of dedicated end-to-end communication solutions for mission-critical networks that offers tailor made solutions to support its customers with their communication challenges. The company's focus is to produce, transport and process voice, data and video information reliably and securely in an efficient and sustainable way. The core product portfolio includes GSM-Railways, FRMCS (future railway mobile communication system), MCx (mission-critical over public networks), 4G/5G public network solutions and IIoT solutions focusing on data processing. Main customers are railways and public transport operators all over Europe. Kontron Transportation drives the evolution into the next generation of broadband solutions for mission-critical networks, for instance as an associated member of the European research initiative Shift2Rail.

The company has more than 600 employees, 12 sites all over Europe and is headquartered in Vienna.
