## ► Product Overview

The EPIC and JReX SBC deliver all what it takes. Based on Intel® Pentium® M or ULV Celeron Processor that is the most compact & complete embedded solution available. The Windows CE Starterkit is designed to give you a head start for your application. In the Starterkit you will find a JReX 3.5" SBC or an EPIC SBC with a fully licensed WinCE version preinstalled on the onboard flash plus all the necessary components like mounted memory, power supply and a CD-ROM.

On the accompanying CD-ROM you will find all the necessary Starterkit documentation, WinCE SDK & BSP, as well as an image of the preinstalled WinCE. With this complete package you'll get all the necessary components to immediately start the evaluation process. This will lead to quicker application development, which will shorten your overall time to market.

With Kontron You stay...always a Jump ahead!
