RAID 0/5 or RAID 1 Solution

» Industrial SATA RAID Solution
» Noise < 35 dBa
» Just connect to SATA port and Power
» RAID Controller integrated

KISS-STOR
Kontron Industrial RAID Subsystem

The main attraction of KISS Stor Series is their extremely user friendly handling. Just Plug to SATA Port and Power and the RAID Solution will work properly. No Drivers needed and the RAID Controller is already integrated in the box.

With Kontron's new KISS-Stor 1 and KISS-Stor 0/5 SATA RAID subsystems, Kontron now offers two economical and efficient solutions to accommodate the growing need for secure, fast, robust, RoHs-compliant systems and whisper-quiet memory capacity. Both KISS-Stor subsystems are easy and uncomplicated to install and manage – the only requirement is a free SATA I or SATA II port. Compared with similar solutions with special RAID cards for storage management, the KISS-Stor saves space and cabling, while maximizing the system's capacity for additional features.

Technical Information

Dimension (H x W x D)	85 x 147 x 200mm
Weight	Approx. 1,3 kg w/o HDDs
Power Connection	HDD Power connector
Drive Bays	RAID 0/5: 3 x Hot Swapable SATA HDDs RAID 1 : 2x Hot swapable SATA HDDs)
Interfaces Front	Key Lock for each Drive Bay
Environmental Specifications Humidity non - condensing (IEC 68-2-1, 2, 3, 14)	10 - 90%, non - operating 20 - 90%, operating
Shock	
Non-operating	20g, 11 ms
Operating	10g, 11 ms
Temperatur (IEC 68 - 2 - 1, 2, 3, 14)	
Non-operating	-20°C to +70°C
Operating	-0°C to +50°C
Vibration	
Operating	10 - 500 Hz; 1g
Storage	10 - 500 Hz; 2g
Noise	< 35 dBA
Protection Class	Front IP20
Approvals	CE, designed to meet UL
Scope of Delivery	RAID Subsystem w/o HDDs CD ROM with Manual and GUI Software Serial adapter cable and Bracket
OS Support	WIN XP Linux
