RES2404-PTP-POE

28 Port 1G/10G High-End Rugged Ethernet Switch with POE

- Powerful 19” 1U fully managed non blocking L2/L3 switch
- Up to 24x 1G RJ45 ports plus 4x 10G SFP+ ports
- Wide temperature range, high shock and vibration robustness
- For demanding applications precision time protocol and power over ethernet
RES2404-PTP
High End Performance in 19 Inch Rack Format

The Rugged Ethernet Switch RES extends Kontron’s existing Ethernet switch portfolio (ATCA, AMC, CompactPCI, VPX, etc.) by the requirements of standalone switches for harsh industrial and governmental applications. Using highest integration of Ethernet switch silicon the RES2404-PTP is specifically designed for working reliably under harsh environmental conditions. The RES is a cost effective manageable Ethernet switch solution offering more capabilities than just Gigabit Ethernet. It is available in 2 versions:

- RES2404-PTP: 24x Gigabit Ethernet copper interfaces, supporting 10/100/1000BASE-T, 4x 1/10 Gigabit Ethernet SFP+ ports
- RES2404-PTP-POE: features of RES2404-PTP, additional 24 copper ports with Power over Ethernet

**KEY FEATURES**

- Fully managed Layer 2 / 3 non blocking Ethernet Switch, IPv6 support
- 24 Ports 10/100/1000Base-T RJ45
- 4x 10GBase-X SFP+ for direct attach copper or fiber
- Precision Time Protocol support for realtime applications
- Power over Ethernet with up to 150 W in total, 30 W max singleport
- DIP switches for configuration management
- SNMP, command line and web management interface
- 1U, 19 inch housing
- Power supply for 110/230 VAC
- Wide temperature range: -20 °C to +50 °C
- Designed to meet industrial, naval and military norms

**Reliability**

The robust mechanical design features including wide temperature range, electronics and power supplies sets the foundation for systems which require high availability and low total cost of ownership. Built-in test capabilities enable effective switch maintenance.

**Management**

The RES2400/2404 can be monitored via remote SNMP. A comprehensive command line and web interface provides easy management and remote configuration by either serial or network interface. Support for comprehensive Ethernet switching/forwarding features, VLANs, Quality of Service and IPv4/IPv6 routing and Multicast, make it an ideal switch for diverse applications requesting high reliability and availability.
## TECHNICAL INFORMATION

### INTERFACES

| 10 GIGABIT ETHERNET | 4x 10GBase-X SFP+ transceiver cages, configurable for 1GBase-X operation using SFP optical transceivers or direct attach copper |
| 1 GIGABIT ETHERNET | 24x RJ45 ports providing 10/100/1000Base-T modes of operation. Power and reset Switch. Serial and Ethernet management ports. Status LEDs. |

### SWITCH CONTROLLER

Broadcom 10G/1G Ethernet Switch with up to 170Gb/s throughput. PowerPC switch controller.

### MANAGEMENT

- 2x DIP switches for user configuration.
- Layer 2/3 Management via SNMP.
- Command Line (Telnet, SSH), web management console In-band - Out of band via Ethernet or RS232.
- Power On Self Test, Dual boot images, Field upgradable software.
- DHCP server, relay and Boot media support.
- SNTP Client, diagnostic, multiple config guration support.
- Alarm contacts, freely programmable.
- Ethernet/Bridging protocols include: - Link aggregation (802.3ad) - VLANs (802.1Q) - QoS (IEEE 802.1p) - Spanning tree (802.1D, 802.1w) - Flow control (802.3x) - GARP/GVRP, GMRP.
- IPv4/IPv6 routing features: - ARP, ICMP, OSPF, RIP, VRRP, DVMRP.
- Enhanced Features are: - IEEE1588v2 support (Precision Time Protocol) - MAC/Phy timestamping - single step PTP - Egress ACLs, IP ACL support, DiffServ - Auto VoIP - IGMP snooping & proxy support - Startup config guration configurable - Watchdog - Cable test.

### OPTIONS

PoE with 150 W max; 30 W per port max.

### GENERAL

- **POWER**
  - 110/230 V, 45 W typ., RES2404-PTP-PoE max 200 W (typ, if max PoE power provided).
- **DIMENSIONS**
  - 445 x 45 x 205 mm (WxHxD) 19 inch, 1U Chassis
- **WEIGHT**
  - 2.5 kg
- **MTBF**
  - RES2404-AC-PTP: 86386h MIL 30 °C; RES2404-AC-PTP-PDE: 99249h MIL 30 °C
- **TEMPERATURE RANGE**
  - -20 °C to +50 °C (non PoE); -20 °C to +55 °C (PoE version)
- **HUMIDITY**
  - 93 % RH at 40 °C, non condensing (acc. to IEC 60068-2-78)
- **SHOCK / VIBRATION**
  - 15 G, 11 ms
  - 10 to 300 Hz, 1 G

### COMPLIANCY

- **SHOCK / VIBRATION / ENVIRONMENT**
  - IEC 60068-2-1, IEC 60068-2-2
  - IEC 60068-2-6, IEC 60068-2-27, IEC 60068-2-29, IEC 60068-2-7B
  - EN 55022, EN 55024
  - EN 61000-4-2/-3/-4/-5/-6/-11
- **SAFETY**
  - EN 60950-1, UL60950-1
